Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Claims 50, 52-61, 63-65 are presented for examination.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/11/2006 has been entered.

Information Disclosure Statement

3. Examiner requests Applicants to update status of any related cases as disclosed in the specification.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed.

Art Unit: 2154

Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 50, 52-61, 63-65 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-1 of U.S. Patent No. 6,973,455 [hereinafter as '455 patent]. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are claiming common subject matter as follow:

Taking claim 50 as an exemplary claim, the '455 patent contains the subject matter claimed in the instant application. As per claim 50, both applications are claiming common subject matter, as follows:

A method of accessing data in a data stored in a data storage location, the method comprising:

a server receiving ...;

in response to the request for data ...; and

using the metadata of the file,

The instant application does not specifically disclose the client using the command to the storage device over a transmission path by bypassing the data mover computer as disclosed in the '455 patent, but it would have been obvious to a person skill in the art at the time the invention was made to realize that the recited claim 50 of the instant application would perform

Art Unit: 2154

the same method steps because the client accesses the data storage device from the metadata information provided by the server.

As per independent claim 61, it is also directed to the same subject matter recited in claim 50 above. Accordingly, it is provisionally rejected under the judicially created doctrine of obviousness-type double patenting.

As per dependent claims 52-60, and 63-65, they are depending on rejected claims, they are provisionally rejected under the judicially created doctrine of obviousness-type double patenting.

6. Applicant's arguments with respect to claims 50, 52-61, 63-65 have been considered but are moot in view of the new ground(s) of rejection.

7. A shortened statutory period for response to this action is set to expire **3 (three) months and 0 (zero) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
